

Appl. No. 10/689,011
Atty. Docket No. 9071M
Amdt. dated November 28, 2005
Response Dated: December 15, 2005
Customer No. 27752

REMARKS

Claims 1-38 have been cancelled. Claims 39-58 are pending. No new claims fees are due.

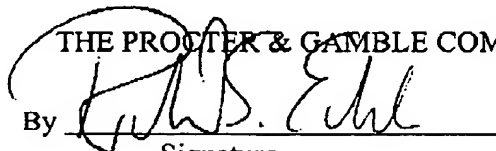

The Examiner has asserted a Restriction Requirement. Applicants elect the compounds of Group III, which are construed to be piperazines wherein Q is not an aryl or heteroaryl unit.

Applicants have re-written the Claims to exclude non-elected subject matter and to provide the Examiner with a clean, clear copy of the claimed subject matter. No new matter has been added and only typographical errors, if found, have been corrected. The Claims have been re-written to particularly point out and distinctly claim the compounds which Applicants believe fall under Group III of the Examiner's Restriction Requirement. Applicants have not surrendered any subject matter since the amendments were made, not for reasons of patentability, but to assist the Examiner in understanding the subject matter Applicants believe is circumscribed by Group III.

CONCLUSION

Applicants have made an earnest effort to place the present claims in condition for allowance. WHEREFORE, entry of the amendments provided herewith, reconsideration of the claims as amended in light of the Remarks provided, and allowance of Claims 39 - 58, is respectfully requested. In the event that issues remain prior to allowance of the noted claims, then the Examiner is invited to call Applicants' undersigned agent to discuss any remaining issues.

Respectfully Submitted,
